

Pull-Push Saw ERIKA 70 Ec up to machine no. 859208

ref.no.: 971401_859208

EAN:

▶ Attention: Just spare parts are still available

Technical data

Cutting height	0 - 2 3/16 Inch
Cutting height at 45°	0 - 1 15/16 Inch
Tilt range	-3 - 48 °
Cutting length	13 3/8 Inch
Table top dimensions	20 11/16 x 32 3/16 Inch
Working height without stand	16 5/16 Inch
Working height with stand	35 1/16 Inch
Nominal No. of strokes – no load	2100 - 4200 1/min
Nominal power input	3.0 hp
Weight	70.5 lbs
Universal motor	230 V / 50 Hz

Delivery specification

- 1 TCT saw blade 225 x 1.8/2.5 x 30 mm (8 7/8 in.), AT, 32 teeth; Ref. No. 092460
- 1 Universal guide fence with fence extension; Ref. No. 201611
- 1 Push stick; Ref. No. 034901
- 1 Allen key 6 mm; Ref. No. 093081
- 1 Extraction set with 2 connectors; Ref. No. 093639
- 1 Fold-away support Quickstand
- 1 Mains cable 4 m (13.1 ft); Ref. No. 087847

examples for usage

Assembling and disassembling the ERIKA 70 Ec are simple one-man jobs. You can unfold the built-in fold-away support within seconds and without tools.

Precise and tear-free – this describes the cuts of the new ERIKA 70 Ec Pull-Push Saw.

The on-off switch is on the right. You operate the machine only with your right hand. Your left hand remains on the workpiece.

Applications

- ▶ Cross and rip cuts
- ▶ Circular saw bench functionality
- ▶ Bevel cuts up to 48°
- ▶ Compatible materials include solid wood, board materials, parquet and laminate flooring, aluminum profiles and plastics

Advantages

- ▶ New type of suction channel revolutionises extraction – for less dust when working.
- ▶ Lightest pull-push saw in its class – for quick and easy transportation.
- ▶ Adjustable speed – for individual processing of wood, plastics or aluminum profiles.
- ▶ With voltage loss switch for protection against uncontrolled reconnection after a power interruption.

Description

The lightest, most stable and most universal machine with the most comprehensive range of optional accessories of 70 mm (2 3/4 in.) pull-push saws on the market: the ERIKA 70 Ec from MAFELL!

The built-in /Quickstand\\ sets the ERIKA on 4 stable aluminium legs within seconds. Protective rubber stoppers on the feet also prevent slipping or knocking.

The unique suction channel concentrates the sawdust and extracts it to the rear. Thanks to this new development, your dust extractor is used even more effectively. The result: clean work on a clean construction site! Operation of the ERIKA leaves no questions unanswered. Clearly designed operating elements are all logically arranged on the front of the machine!

Operation of the ERIKA leaves no questions unanswered. Clearly designed operating elements are all logically arranged on the front of the machine!

Thanks to the E-control electronic system and the corresponding MAFELL original saw blade, it is possible to process other materials in addition to wood, such as plastics or aluminium profiles.

Further advantages of the ERIKA 70 Ec: Extremely stable table profile, tilt range from -3° to 48° and lowerable riving knife.

Accessories / Tools

Sliding table
maximum cutting length 905 mm (35 5/8 in.)

Fence guide extension
1000 mm (39 3/8 in.) long, incl. drop stop
